

COURSE OVERVIEW

This is being offered because of the many errors that have crept into the art of praying and because of many traditions that have been passed down the generations that are not exactly right. Among these are:

1. Many believe that prayer changes God.
2. Many believe that their effort is what gets them things from God.
3. Many believe that fervency has to do with how loudly you shout.
4. Many believe that the duration of their prayers has something to do with the answers.
5. Many don't really trust God even after they have prayed.
6. Many Christians don't receive answers when they pray and go on to presume God had answered them.
7. Many believe they know how to pray...
